*Our energy advisor can help you
round up the savings.*

Service description:

- Site visit by an energy engineer
- Operations and maintenance training
- Identifying and implementing no-cost and low-cost improvements
- Setting up utility tracking
- Planning for facility improvements

Energy Management Standards for Success

- ☐ Get everyone involved: custodians, administration, teachers, students, maintenance
- ☐ Make low-cost and no-cost improvements immediately
- ☐ Track utility bills monthly
- ☐ Benchmark performance annually
- ☐ Do preventative maintenance
- ☐ Make long-term plans for equipment maintenance and replacement
- ☐ Teach kids about energy
- ☐ Upgrade to efficient equipment

Working together:

Kudos to these school districts that already started improving schools and saving money:

- Campo, Baca County RE-6
- Pritchett, Baca County RE-3
- Walsh, Baca County RE-1
- Eads, Kiowa County RE-1
- Joes, Liberty J-4

Join this network of small school districts and start saving dollars now.

No-cost and low-cost ways to cut utility bills today:

- Adjust time clock schedules
- Tune up boilers
- Set back thermostats
- Work with students and teachers to turn off lights and computers when not needed
